About us

Laleh Pishgam manufactures reliable household and industrial electric water pumps, and electromotors engineered for long service life.

SELF-PRIMING PUMPS

CAM100 Series

Model: CAM100

Self-priming centrifugal electro pump for reliable water pumping, even when the suction line contains air.

Applications

Water transfer and tank emptying, gardening, pool drainage, and domestic use.

Key features

- Self-priming design
- Cast iron pump body
- Stainless steel & Noryl impeller
- IP44 protection

CAM100 Series

HYDRAULIC SPECIFICATIONS

Flow rate **57–10 / 27–50 L/min**

Max head **57 m**

Liquid temperature **0–50 °C**

ELECTRIC MOTOR

Motor power **0.74 kW (single-phase)**

Insulation class **F**

Protection class **IP44**

MATERIALS & CONSTRUCTION

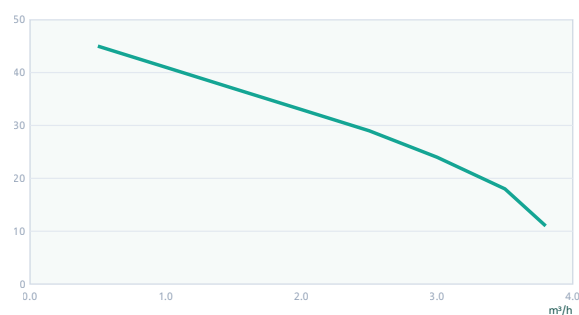

Motor body **Aluminium**

Pump body **Cast iron**

Impeller **Stainless steel & Noryl (Bakelite)**

Shaft **Stainless steel CK45**

Performance curve

CM100 Series

Model: CM100

Single-stage peripheral electric water pump, designed and built for domestic and industrial use. Its high-pressure capability makes it a classic peripheral pump.

Applications

Boosting domestic water pressure, garden irrigation systems, and industrial applications.

Key features

- Cast iron pump body
- Stainless steel & Noryl impeller
- Continuous duty with thermal protection
- IP44 protection

CM100 Series

HYDRAULIC SPECIFICATIONS

Flow rate	25–90 / 33–20 L/min
-----------	---------------------

Max head	33 m
----------	------

Liquid temperature	0–50 °C
--------------------	---------

ELECTRIC MOTOR

Motor power	0.74 kW (single-phase)
-------------	------------------------

Insulation class	F
------------------	---

Protection class	IP44
------------------	------

Duty	Continuous, with thermal protection
------	-------------------------------------

MATERIALS & CONSTRUCTION

Motor body	Aluminium
